

Follow-Up to Screening: How We Can Support Your Child

Why did we have you complete a questionnaire about your child's development?

Our goal is to help young brains and bodies develop and grow to their fullest potential. These support services can help prepare your child for kindergarten and beyond.

National recommendations call for specific tools to be used to assess a child's development, such as the one you completed. This tool helps identify kids who may be at-risk for delays. It is important to identify these delays early, as there are services that can address them.

Based on the results, we are referring your child to the services checked below:

Early Intervention (EI)

Who is Early Intervention?

EI helps babies and toddlers with their development. In your area, Willamette Education Service District (WESD) runs the EI program.

EI focuses on helping young children learn skills. EI services enhance language, social and physical development through play-based interventions and parent coaching.

There is no charge (it is free) to families for EI services.

What can you expect if your child was referred to EI:

- WESD will call you to set up an appointment for their team to assess your child.
- If you miss their call, you should call back to schedule a time for the evaluation. They have a limited time to set up the appointment. Their phone number is 503-435-5918.
- The results from their assessment will be used to determine whether or not EI can provide services for your child.

Family CORE

Who is Family CORE?

Family CORE is a group of community organizations. This group meets each week to identify the best program and services to meet the needs of the child and family. Family CORE services have eligibility requirements.

There is no charge (it is free) to families for Family CORE services.

What can you expect if your child was referred to Family CORE:

One of the community organizations will reach out to your family to schedule an appointment.

Medical and Therapy Services

Your child's health care provider referred you to the following:

- Speech Language Pathologist: Specializes in speech, voice, and swallowing disorders
- Audiologist: Specializes in hearing and balance concerns
- Developmental-Behavioral Pediatrician: Specializes in the following child development areas: Learning delays, feeding problems, Behavior concern, delayed development in speech, motor, or cognitive skills
- Autism Specialist: Specializes in providing a diagnosis and treatment plan for children with symptoms of Autism
- Occupational Therapist: Specialize in performance activities necessary for daily life
- Physical Therapist: Specializes in range of movement and physical coordination

Why did you sign a consent form?

As your child's primary care provider, we want to be informed about the care your child receives so that we can provide the best care possible. The consent you signed allows the programs to share information back to us.

Different programs have different consent requirements. You will likely be asked to sign more of these to give permission for different providers to communicate about your child's care.

Any Questions?

At Physicians Medical Center we are here to support you and your child and help you get the best care possible. If you have questions about this process please call us!
