

Factors to Consider in Identifying Pathways for Best Follow-Up to Meet Child and Family Needs

- Based on these factors, important to consider referral pathways to the following:
 1. Early Intervention
 2. Home Visiting Programs
 3. Parenting Classes
 4. Mental Health
 5. Medical and Therapy Services
 6. Developmental Promotion
- Included in the decision tree is secondary follow-up steps depending on whether child is eligible or not for services
 - For example: Right now, pathway stops when a kid is ineligible
 - Important to think about secondary referrals and pathways for the EI-ineligible children
- If you would like more detail and information about this, please contact OPIP at opip@ohsu.edu
